Paper: Lab Assessment

Time Allowed: 120 Minutes

Subject: Web Technologies Lab

Roll #: _____

Semester: spring 2023

Marks: 10

Section: 2021-SE

Name: _____

Question1:

Write html, css , JavaScript , php code for given web-pages :

Login:

- Users enter login details.
- Check if user exists in the database.
- If exists, start session and redirect to profile; else, show "User does not exist" message.

A login form mockup is shown within a light gray border. The form itself is white with a subtle shadow. At the top center of the form is a circular icon containing a person silhouette. Below this icon are two input fields: the first contains the text 'samia' and the second contains '1234'. Below the input fields is a blue button with the text 'Login' in white. At the bottom of the form, centered, is a link that reads 'Already have an account ?' in blue text.

Profile:

- Display user's most recent transaction details.
- Provide option to view all transactions.
- Transaction Details:
- Generate **PDF** showing all transactions involving the user.

AND TECHNOLOGY, LAHORE**

New Transaction:

- Allow user to send money to another account.
- Validate sender's balance before processing transaction.

Session:

- Track user activity using sessions.
- Set session expiration to 1 minute.
- Expire session and redirect to login if no activity within 1 minute.

Handle exception efficiently and generate alerts where required.
